

ActiveRecruiter Business Edition provides everything you would expect from a best of breed, corporate e-Recruitment solution. Deployed quickly and easy-to-use, your career site could be up and running in a matter of hours.

ActiveRecruiter Business Edition

For organisations from 1 to 5000 employees

ActiveRecruiter Business Edition is a comprehensive solution for streamlining your corporate recruitment activities. Easy-to-use and with the capability to be fully deployed in as little as 48 hours, ActiveRecruiter Business Edition automates your end-to-end recruiting process.

Why use ActiveRecruiter Business Edition?

ActiveRecruiter Business Edition helps you minimise the business impact of replacing or hiring new talent and maximises your overall recruitment investments. It allows you to attract and build a solid talent pool so you can quickly respond to your business today *and* tomorrow with less focus on the administrative challenges. With ActiveRecruiter Business Edition, you can:

- Attract and engage better quality hires with personalised branding and use techniques tailored to the candidate such as branded HTML email, Google maps, Web 2.0 social media techniques like social networking and more
- Jumpstart your recruitment process with an easy to use solution including “splash screens” providing guidance on all recruitment based stages
- Engage your users with easy-to-use, highly configurable workflows and collaborative tools
- Multiple career site functionality allowing for both external recruitment and internal mobility
- Measure effectiveness with comprehensive reporting from compliance to activity monitoring
- Easily integrate with your job boards, background screening and online assessment providers.

Key Benefits

- Achieve significant recruitment costs savings by streamlining your recruitment processes
- Considerably reduce your time-to-hire by as much as 25-30%
- Extend your talent reach across multiple geographies while ensuring local compliance
- Leverage your corporate brand using a targeted and personalised career site that is seamless with your corporate website
- Protect your employer brand with fair, consistent practices
- Out-of-the-box capabilities where you are in control

ActiveRecruiter Business Edition

Job Requisition

Create bespoke jobs and allow recruiters to share position specifications via a library of standardized templates that can be easily tailored for future use.

Applicant Tracking

Manage candidate applications with easy-to-use customizable workflows. Automate your application-stage emails and keep track of all application activity and correspondence.

Channel Management

Post your jobs to multiple internal/ external recruitment channels to ensure maximum exposure for the right candidates. Quickly set up email/RSS channels and take full advantage of our recruitment partner integration.

Career Sites

Set up custom Career Sites in minutes to advertise your jobs and gather candidates. Create sites that match your company branding, look and feel, and tailor them to specific groups such as Young Graduates, Experienced Professionals or Internal Candidates.

Management Reporting

Monitor the progress of your recruitment campaigns across different channels and business areas, including the ability to create and run ad-hoc reports.

Social Network support

Gain maximum exposure for your jobs by posting to popular networks such as Twitter. Target different user groups and skill levels with keywords that match your candidate requirements.

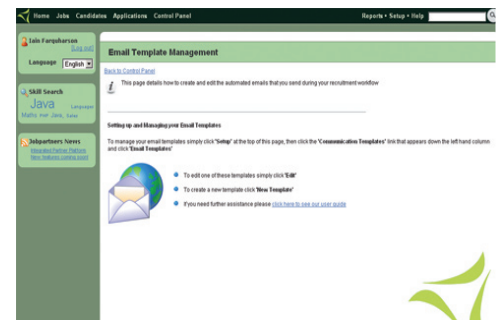

World Class Platform

Our service is based on cutting-edge SaaS (Software as a Service) technology, which gives our clients unmatched flexibility and the quickest setup time in the industry. It also provides us with easy integration with other leading partners in the field.

By delivering highly flexible, easy-to-use solutions that can meet your unique requirements and internal processes, Jobpartners gives you the tools and time to make recruitment and people management personal again.

▲ The Recruiter Gateway uses an easy to use process driven workflow environment to streamline recruitment for both HR professionals and line managers

▲ “Splash screen” guides on all recruitment based stages make ActiveRecruiter Business Edition user friendly and simple to follow.

About Jobpartners

Jobpartners provides Software as a Service solutions (SaaS) for talent and people management in more than 50 countries, across all industries and in 28 languages. We help Human Resource executives effectively attract, connect, develop and retain the quality people their organisations need to remain competitive in today’s global business environment.

Our personal approach to people management helps you create that “great place to work” culture on which your brand depends, and maximises your organisational potential to accelerate performance.
